1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Schad (cited by Applicant). Schad discloses the claimed structure including a retractable leg 32 for an amphibious vehicle 11 with a linear actuator, and a steerable balloon tire 27. With respect to the functional language claimed, the device of Schad inherently meets such language.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Matheson shows a wheel.
